

Decision Support Tools

U/SQL® - Makes your data accessible

U/SQL (Universal Structured Query Language) serves as the GATEWAY TO YOUR PROFIT MANAGER DATA.

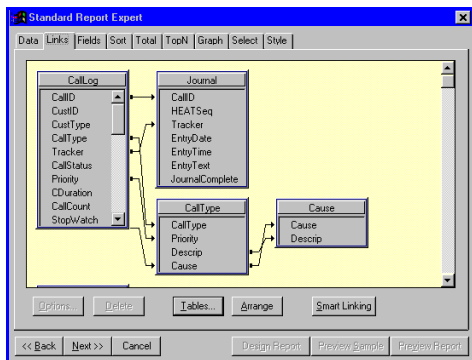

- Export Profit Manager data quickly and easily
- Import data directly into:
 - MS Excel® spreadsheets
 - MS Access® databases
 - Your Internet web pages
 - Any ODBC (Open Data Base Connectivity) compliant software
- Combine PBSI data with other data

Crystal Reports® - An expert learning tool

Crystal Reports is a Windows® based PC desktop report tool that can turn your Profit Manager data INTO DECISIONS.

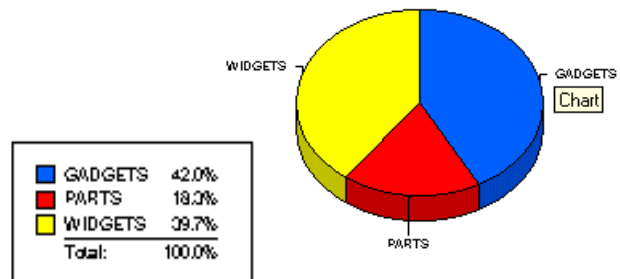

- Create custom reports with drill-down options
- Create graphs & charts for visual decision clarity
- Access Profit Manager data - online, anytime
- Perform record and field selection, custom totaling
- Link multiple files from different ODBC sources
- Sort records, create “smart” sub-reports
- Easily export data to other programs
- E-mail reports - automate the date & time

Profit Manager Data + Crystal Reports + U/SQL = Powerful Decision-Making Tools

Link your Profit Manager data
