

Dragon Medical®

Integrates into any EHR

**PBSI is an authorized partner for
Dragon Medical®,
the world's leading speech recognition software.**

Benefits

- Dictate faster and more accurately than ever before.
- Most people speak 120 words per minute, but type less than 40 words.
- Dictate anywhere in your EHR and accelerate adoption.
- Instant availability of clinical documentation.
- Reduce or eliminate transcription cost.
- Spend more time with patients.
- Dictate in clinician's own words.
- Support higher level of reimbursement and reduce denials.
- Improve clinician satisfaction.

Features

- Speak-to-text at any point in an encounter.
- Includes 80 medical specialty vocabularies and sub-specialties.
- Review "transcribed" text in real-time while speaking.
- Create voice shortcuts (e.g.: "normal exam") to quickly build customized progress notes.
- Usable with current technology – Tablet PC, laptop, or desktop PC.
- Windows® navigation using speech – open, close, and control applications.
- Two choices:
 - Dictate directly into PC for real-time transcription.
 - or
 - Dictate into a digital recorder allowing transcriptionist to edit text.

*Quickly adapts to your voice
and speech patterns.
Gets smarter the more you use it!*
